

What Happens After the Summit?

Empowering Your High Potentials Post-Summit

After the Summit, Your Delegates officially join the world's most dynamic network of changemakers. They continue developing through exclusive opportunities, mentorship, and programmes designed to help them scale their impact, both within your organisation and beyond.

1. Action Accelerator: From Ideas to Impact

After attending the One Young World Summit, Ambassadors are invited to take part in the **Action Accelerator**, a six-month structured online course that supports them in transforming their ideas into tangible initiatives.

The course is made up of six modules featuring interactive seminars, mentor-led sessions, practical workshops, and curated resources. Each module is designed to strengthen Ambassadors' ability to launch or grow impactful projects.

At the end of the Action Accelerator, all participants are eligible to enter the **Pitch Competition**, with winners earning a place at the next One Young World Summit.

The Action Accelerator helps Ambassadors build on the momentum of the Summit, equipping them with the skills and support to drive lasting change.

85%

of participants said the Action Accelerator improved their skills to create social impact

"Through the Action Accelerator, I received mentorship, resources, and a platform to refine our business model and better understand our target market. Thus, we evolved from a concept to a viable business."

- Antony Cabrera, Scholar

"Through the Action Accelerator, I got the tools and knowledge to launch our program amongst all of my company's 270,000 staff worldwide. I was also inspired to set up my own charity and host training programmes outside of my organisation."

- Jaime Brown, Corporate Delegate

2. Global Network

One Young World Ambassadors become part of a high-impact global network of **18,700+** young leaders across **190+** countries.

This community is supported by a wider ecosystem of global businesses, and organisations that convene members, provide mentorship, and contribute to a culture of continuous learning and collaboration. The majority of our regional events are hosted by corporate partners, offering Ambassadors access to industry insights, professional networks, and cross-sector connections.

In the past year alone, Ambassadors took part in over **140** events worldwide, ranging from congresses and hackathons to informal meetups, exploring themes such as health, the environment, and education.

62%

of Ambassadors attend Community events or meetups¹ in the past 18 months.

3. Community Platform

The One Young World Community Platform is an exclusive digital space, accessible only to Ambassadors. It offers lifetime access to the entire global network of One Young World alumni, spanning every cohort since 2010.

Through the Platform, Ambassadors can connect across regions and cohorts, seek peer support, exchange mentorship, and collaborate with fellow leaders driving change around the world.

It's also a hub for exclusive opportunities, events, and updates, where Ambassadors can share their work, amplify their impact, and stay actively engaged with the Community for years to come.

77%

establish new connections within the Community two years after attending the Summit

"The biggest impact of One Young World for me has been the platform it represents. It has given me a wonderful network, and the courage and motivation to do so much more."

- Dicky Dwi Alfandy, Scholar

4. Impact Support

Our Impact Team supports Ambassadors in monitoring, evaluating and communicating the outcomes of their work. Each year, we conduct social return on investment (SROI) analysis on Ambassador-led initiatives and provide resources and guidance to Ambassadors on how best to showcase their impact.

We certify their results to help build credibility, unlock funding opportunities, and demonstrate the value of their work to potential partners and investors.

Ambassador initiatives are featured in our Annual Impact Report and showcased throughout the year across One Young World's social media channels and in mainstream media, helping to amplify their reach and influence.
