

Accelerate Your Leadership Pipeline Through Our Global Network

Transform your talent pipeline. Accelerate leadership development. Build tomorrow's business leaders.

Global Impact Starts Here

The One Young World Summit brings together 2,000+ of the world's most promising young leaders, and high-potentials from **190+ countries**. Delegates earn their place through rigorous Partner selection or competitive scholarships, then dive into four intensive days of strategic sessions, hands-on workshops, and high-impact networking.

What sets this apart? Direct mentorship from the world's most respected voices - think Nobel Peace Laureates like **Maria Ressa**, as well as respected names like **Sir Bob Geldof**, and **Her Majesty Queen Rania of Jordan**. These aren't your typical conference keynotes; they're impactful sessions where Delegates get real-time strategic advice from leaders who've actually changed the world.

The Summit is just the beginning. Delegates graduate as Ambassadors with exclusive mentorship access, funding opportunities, global speaking platforms, and a network of **20,000+ change-makers** who actually get things done. They return to their organisations as catalysts, equipped to drive the initiatives that matter.

Since 2010, we've helped **800+ businesses** discover and develop their next generation of leaders by providing the tools, networks, and platforms that turn ambitious ideas into market-moving impact.

One Young World Partners include

"Delegates learn from one another, gathering skills to become impactful, responsible business leaders of the future."

Ambassador Spotlights

L'ORÉAL

Juleah Love

Abuse Is Not Love Global Programme

Juleah spearheaded the expansion of their intimate partner violence prevention initiative, transforming it into a comprehensive global programme. Since her Summit experience in 2022, the initiative has trained 1.3 million people across 25+ countries and reached 23 million people internationally, positioning L'Oréal as a leader in corporate social responsibility and women's safety advocacy.

reckitt

Nida Sheikh

Tayaba

Through the Lead2030 programme, Reckitt's funding and mentorship enabled the transformation of a donation-based non-profit into a financially sustainable social enterprise. Tayaba delivers innovative water solutions including H2O Air devices, strengthening Reckitt's position in sustainable innovation while addressing Pakistan's water crisis.

AstraZeneca

Mackenzie Hamilton

Sustainable Council

Mackenzie, a Medical Evidence Lead in the Scientific Affairs department, is a member of AstraZeneca Canada's Sustainability Council, made up of 21 employees who are deeply committed to embedding sustainability. To date, she has helped AstraZeneca Canada evaluate access to clinical trials, measure access to medicines among underserved populations, and measure the environmental footprint of healthcare activities in Canada.
